

Quality, affordable Act 54 training for code inspectors and officials is available in Lansing!

If you are looking for Act 54 educational credits, but don't want to spend a lot of time or money, consider attending one of the training sessions facilitated by staff from the Bureau of Construction Codes. Bureau staff are heavily involved in the code development process both in Michigan, and on the national level. Through attending the ICC code development meetings, Bureau staff stay up to date on current codes as well as pending code changes. Take advantage of this knowledge by attending these programs. Training programs are currently scheduled for October 2006 in Lansing. Cost is approximately \$60 per person, per day, and includes lunch.

Program topics include (tentative):
